

RECORDER SPECIFICATIONS

WEIGHT	360 Grams
SIZE	L 190mm Diameter 30mm
OPERATING TEMPERATURE	-40 to +85 Deg C
BATTERY LIFE	7 Years CONTINUOUS*
CONSTRUCTION	Full machined 316 stainless steel with polymer cushioning handle
WATER RESISTANCE	>20 Meters / 48 Hours
READ INDICATION	LED FLASH
CAPACITY	>4060 READS
EVENT STORE FORMAT	Date Hour Minute Second Serial No
READ SPEED	Less than 4ms
INTERNAL VOLTAGE	3.6 Volts

ABOUT UNIGUARD SOFTWARE:

UniGuard 11 software compliments this very sturdy and reliable data wand. This Windows based 32 bit software comes with full access to many reporting features as standard.

UniGuard 11 software allows for unlimited sites and patrol points and has been developed specifically for Australia over 15 years of research. Additional reports are added to our software at client request; we listen to our front end users.

Report features include Patrol, exception, late/early at point reports, recorder, missed points, site activity reports, recorder activity reports as well special additions such as a guard photo database and the ability to scan in floor plans of sites to be visited and patrol points on site.
